

**If you always wanted to know what it was like to fly like the birds then ziplining is your chance to soar above the jungle canopy traversing from one platform to another. ☐**

Belize's ziplining, rappelling and aerial canopy tours are first-class, high-adventure trips for adrenaline junkies and thrill seekers. On the canopy tour, you are fastened to a steel cable, that hangs above and between the tree tops, your given a gentle push by your guide and off you go sailing across the sky. Enjoy the rush of rappelling through the rainforest canopy to the forest floor hundreds of feet below and don't forget to look down the view is great from up here.
